

The OLLI West Campus presents...

Adapting to Earth's Climate:

**Extreme Weather Events, a Worldwide Energy Revolution
and Geoengineering Options**

Facilitated by Paul Belanger, Ph.D. & Phil Nelson, Ph.D.

Exploring climate change and extreme weather events,
how it's creating a worldwide energy revolution and a
biochar geoengineering option.

March 27 – May 15

Weekly lectures Mondays 1:00-3:00
and a field trip to the National Renewable Lab
