RE: CLASS 3 tomorrow, Tuesday 9/30 at FED center 9 a.m.
This is the 1st email follow up to week2,
9/29/2014

My apologies for the delay - local emergencies.

PLEASE ARRIVE AT THE GATE AROUND 8:45, ask the guard how to get to the ice core lab. For some of you that know the facility it's a little further around where they used to sell maps. Look for a concrete bison at some steps to the facility.

Welcome Linda Foreman and Jane Wallace who have been on the wait list. I believe Sandra and Fran Hagman are not continuing. It's unclear to me if Chuck Rudolph or Bob Stelzer are continuing (no-shows thusfar). I'd be glad to keep you on the list and/or check my website anytime you want - let me know.

week 3; website:

This a reminder that class tomorrow is earlier at 9 and at the Fed center. If you have a guest you'd like to bring, bring them; don't bother confirming

Please see by web page week 3 for directions:

http://denverclimatestudygroup.com/?page_id=436

but **repeated here: <http://icecores.org/about/index.shtml#location>**

Keep Richard's number 303-202-4830 and my cell number 303-249-7966 handy should you get lost.

Shipping and FedEx Address

National Ice Core Laboratory
 U.S. Geological Survey
 One Denver Federal Center
 Building 810, Entrance E-11, MS 975
 Denver, CO 80225-0046

Mailing Address

National Ice Core Laboratory
 MS-975, USGS
 Box 25046, DFC
 Denver, CO 80225-0046

We will be greeted by Richard Nunn:
 Assistant Curator

Mr. Richard Nunn

U.S. National Ice Core Laboratory

Phone: **(303) 202-4830**
