# BRINGING THE PARIS CLIMATE ACCORD HOME

## DECARBONIZING ONE COMMUNITY AT A TIME

**Nuts & Bolts Workshop with  
Leslie Glustrom, Jeff Newman-Lee & Ken Regelson**

# Sat. Feb. 6

**9:30am-2:30pm**

Jefferson Unitarian Church 14350 W. 32nd Ave, Golden (Applewood)

In this workshop you will learn how cities can chose renewable energy alternatives over electricity produced with carbon spewing coal plants that provide much of our electricity in Colorado today.

After a brief look at our situation we'll focus on how citizens can convince city officials to start seeing their current commitment to coal as both a problem and an opportunity.

The goal is to come away with **concrete steps to take**, not just to give you information.

Guiding us will be **Leslie Glustrom, Ken Regelson, Jeff Neuman-Lee** and others with extensive experience in organizing.

Join us for a fun, engaging time:– you'll leave with concrete ideas and more hope than when you came with.

**RSVP:** Martin Voelker, 303-215-1110; [jcres@cres-energy.org](mailto:jcres@cres-energy.org) – Leslie Glustrom, (303) 245-8637

*Lunch and coffee are served. \$30 /\$15 fee, no one turned away.*
